# ENCORE L20, S20

## walk behind scrubber-dryer

The tangential three-stage vacuum motor allows for "best in industry" solution collection and longer life.

Easy emptying of recovery and solution tanks with the hose.

Parabolic, break-away squeegee is standard with all ENCORE machines.

One piece transaxle drive system provides smooth forward/reverse traverse for increased manoeuvrability with no need for daily maintenance (L Series only).

Solution and brush off in neutral, when the machine stops the brush and solution automatically stop this protects the floor and eliminates spillage (L only).

No-tool squeegee blade change and adjusting  
No need for the use of tools, the squeegee blades can be used on all 4 edges.

Large tanks and battery compartment  
Long running time without re-filling.

Polydur solution/recovery tanks have an eight-year warranty with no rusting or corrosion possible.

Bristle brush skirts prevent the solution from spraying and at the same time allows double scrubbing.

Brush motor is durable and designed to provide consistent power to the scrubbing brush or pad driver.
